

## Summer Math Challenge

Research shows that ALL students lose 2.6 months of math computation skills over summer vacation. Did you know that solving at least one math problem a day will help keep those skills fresh and ready to go? Saint Mary is starting a FREE Virtual Summer Math Challenge. Just sign up with Remind (student cell phone, parent/guardian cell phone, or both). Note: Students under 13 need their grown-up to text back the answer because of Remind privacy/message rules for children.

During summer break, you'll receive a daily question, and maybe an interesting math-related fact or a fun activity link. Students answer the question and text back their answer (maybe a picture of their work). For each question they answer, they get a "point" toward monthly and end-of-summer prizes.

So, in a nutshell – Spend 5 minutes a day to keep math skills fresh, prizes at summer's end! If you have questions about the program, please contact Ms. Honsinger at on Remind or at [susan.honsinger@saintmaryschool.net](mailto:susan.honsinger@saintmaryschool.net). You can also contact Ms. Honsinger for hints on the daily questions if needed!!
